REMARKS.—Since the date of our last weekly review the Flour market has been firm and active, and during the week has sustained an advance of 25 to 50 per cent. The receipts are light and the demand is steady for the local trade. Family brands, however, are quiet at our quotations; Extra and Super are very scarce; Western and Pennsylvania brands are quiet at 25c per barrel under our quotations. We quote the market very firm at the close, with sales of about 500 barrels, as follows: Family 9.50 to \$10; Choice \$10.50; Extra 8.75 to \$9; Super 7.62 to \$7.87. Rye Flour is very firm, and we nominalize quote at 5.25 to \$5.50. The receipts of Wheat during the week have been light, and the market has been active for good to choice samples, which show an advance of 3 to 5c per bushel; offerings to-day of 450 bushels, with sales of good at 184 and 187; prime at 190 to 192 and choice at 195. Corn has been in light receipt and has sustained an advance of 2 to 3c per bushel; offerings to-day of 1,194 bushels, with sales at 72 to 73. Rye is quiet but firm; sales to-day of small lots on Change at 100 to 102. Oats have been more active during the week; receipts are light; offerings to-day of 440 bushels, with sales at 55 and 60. The market is still bare of lump Plaster; cargoes are looked for, and orders are booked for future delivery. Salt is in full supply, and the demand is moderate. Dressed Poultry is dull; the season is about over, as the weather is now too warm for the trade. Bacon is very dull; quotations are merely nominal, and we can note no transactions except in small lots to the retail trade. Dressed Hogs are dull and lower. Lard is dull. Prime Butter is scarce and wanted; other grades are very dull. Dried Fruit is scarce and in active enquiry. Eggs are less active at quotations. Chickens are arriving more freely, and are steady at quotations. Green Apples are scarce and wanted. Irish Potatoes are steady. Onions are very dull. Seeds are dull; prime Clover is scarce.

FISH MARKET.—The supply of Fish to-day has been equal to the demand, and the market has ruled dull. The receipts since last report have been 150,000 Herring, 3,000 Shad, 15,000 Tailors, and a plentiful supply of Rock, Perch and Catfish. The Herring sold at from 6.50 to \$7.50 per thousand; the Shad at from \$8.50 to \$11 per hundred; the Tailors at from 1 to \$1.50 per hundred, and Rock and Perch at from 8 to 15c a bunch—large Rock at from 25c to \$1, according to size. Salters are operating sparingly, and the indications are that prices will be lower. The weather is fine, and large receipts are now looked for.

ALEXANDRIA CATTLE MARKET, April 12.—[Reported by J. R. Smoot, Live Stock Broker.] Beef Cattle.—The offerings this week amounted to 100 head, 15 of which were sold to the butchers here, and the remainder driven to the district markets. RECEPTION.—Mr. Robert Porter, the prosperous and enterprising brewer of this city, and his charming bride entertained their numerous friends at Harmau Hall last night, and no more agreeable evening was ever spent in Alexandria. Every arrangement had been made by which the pleasure of the guests could be secured and they were carried out to perfection. Dancing continued until a late hour, and was only interrupted at intervals in order that those engaged in it might partake of the most delicious refreshments. During the evening Mr. Justus Schneider on behalf of the friends of the host and hostess, presented them, in a neat and appropriate address, a handsome and valuable clock which was received by Mr. Porter in a happy response. The evening was one of unalloyed enjoyment, but

"Of all that did chance, 'twere a long tale to tell, Of the dances and dresses, and who was the belle; But each was so happy, and all were so fair, That night stole away and dawn caught them there."

THE COAL TRADE.—The Cumberland News of yesterday says:—"In our city yesterday a difference, (fortunately of a temporary character, however), arose between some of the boatmen and one or two of the coal companies. The affair grew out of the reduction in rates by several of the companies of five cents per ton. The reduction was inaugurated by the Borden Company on the 1st inst., and by the Hampshire and Baltimore a day or two thereafter. Yesterday, when the boatmen of the companies last named, although proceeding with the loading, refused to take out their manifests. After a few hours the matter it seems was reconsidered, and the boats cleared as usual. The reduction proposed, as we have stated, was five cents per ton, making the rate to Georgetown \$1.35 and to Alexandria \$1.40."

Forty three boats cleared from Cumberland yesterday, carrying 4,750.05 tons.

THE FISHERY.—Affairs at Fishtown presented a busy appearance this morning, though but few country wagons were there—indeed the country trade, so far this season, has been exceedingly limited, the purchasers being the packers, and the hucksters of this city, and of the District of Columbia. Baltimore and Frederick. The largest cargo of fish received this morning arrived this morning from Mr. Joseph Beasley's shore at Annapolis. It contained 25,000 herring, 500 shad, and a large number of rock and perch. Many strangers visit the place to witness the operations carried on there, and at meal times a large bell, just rigged over Coleman's restaurant, summons the hungry to partake of all sorts of fish, cooked in all sorts of style.

W. & O. R. R.—In a communication to the Washington Chronicle from Mr. McKenzie, president of the W. & O. R. R., in reply to several communications and articles which have appeared in that paper concerning the management of the road, Mr. McK. says: "I would say that the people of Alexandria have contributed largely to the building of this road, while neither Washington nor Georgetown have contributed a shilling beyond some ten shares of stock taken by Mr. Cameron and two or three other citizens of Washington. Until they shall have done something reputable in amount toward making the road, it would be more becoming to them to show a little more modesty in their claims regarding it."

DOG KILLING.—Walking a straight line is a test of sanity when applied to humanity, but the reverse obtains when the canine race is to be judged, especially if the gait be changed in to a run, and the dog now seen, looking neither to the right nor left, but running in a straight line anywhere in the neighborhood is in imminent peril of his life. One belated cur on his way home, as fast as his feet would carry him, met his doom at the upper end of Duke street last night, his destroyer being under the supposition that he was mad.

ACCURATE RETURNS.—Mr. John W. Campbell, Commissioner of Revenue for this city, has just received from the Auditor of Public Accounts a statement, by which it appears that a difference of only eighty cents has been discovered in the whole assessment on licenses and real and personal property of this city, amounting in the aggregate to over four millions of dollars. It is fair to presume that the accuracy of Mr. Campbell's returns has not been exceeded in the State.

DISSATISFIED RADICALS.—It is understood that a good deal of dissatisfaction exists respecting the action of the late Radical County Convention in this city, in its appointment of office holders as delegates to the State Convention, and that for the purpose of giving public expression to the dissatisfaction and of appointing another set of delegates to the Richmond Convention, a meeting will be held in the 4th Ward to-morrow night, to be followed by meetings in the other Wards next week.

ACADEMY JOURNAL.—The Academy Journal, after an intermission of three years, made its appearance again this morning. It is published monthly by the students of St. John's Academy. Richard J. Collins is the editor, assisted by James E. Clements, Clarence E. French, Leonard Marbury and W. M. Baggott. The editorial part of the paper is executed by Messrs. Markell & Hill former students of the Academy.

WASHINGTON AND ALEXANDRIA TURNPIKE.—It is reported that the present almost impassable condition of the Washington and Alexandria Turnpike is at last to be remedied; that the road will be immediately repaired throughout its entire length, and that again the only direct carriage road between this city and the National Capital will be open to travel.

FINE BEEF AND SPRING LAMB.—Mr. Holland will have at his stand in the Market, to-morrow morning, some of the same kind of splendid beef that gave so much satisfaction last Saturday. Also, some very superior Spring Lamb worth the attention of housekeepers.

PIEDMONT AGRICULTURAL ASSOCIATION.—Mr. S. S. Bradford, of Culpeper county, will address the members of the Commercial Exchange and all others interested in the material advancement of this section of the State, at the Exchange Rooms to-morrow morning, upon the benefits to accrue from the success of the Piedmont Agricultural Association.

SODA WATER.—The late prevailing warm weather has induced the soda water sellers to commence preparations for the summer business in that line. Fountains are being cleaned and repaired, and the other portion of the apparatus furnished, and in a few days, if the weather continues as at present, "Arctic Soda" will be on draft in all quarters of the city.

MAYOR'S OFFICE.—John Wanser, for disorderly conduct at the house of Kate Masten, in "Buzzards Roost," both colored, was fined and discharged.

NIGHT REPORT.—Night clear and temperature mild. There were no disturbances. One prisoner was at the station house.

FRESH FISH.—The fish benches at the Market are now well supplied every morning. Mr. Sherwood has this morning some of the finest and largest perch—our best pan fish—that we have yet seen.

POSTAL AGENTS.—Wm. Kealey has been appointed head clerk on the post railway route from Washington to Richmond; M. V. Bailey, head clerk on the same route; and G. H. Darlee and Geo. F. Marble, clerks.

POSTPONED.—The meeting of the Virginia University Alumni Association, to have been held to-night, has been postponed.

FROM WASHINGTON.

CONGRESS.

WASHINGTON, April 12, 1872.

The Senate, to-day, was engaged during the greater portion of the morning hour in the discussion of a bill authorizing the construction of a bridge over the Missouri river at Nebraska City. The bill finally passed.

Mr. Johnston, of Va., presented the memorial of Wm. H. McDaniel of Culpeper county, Va., asking for a pension. Mr. J. said that the pension law required sixty days service, but McDaniel had served fifty-eight days—only two days less than was needed. The petitioner was now in the poor's house at Culpeper. He moved that the memorial be referred to the Committee on Pensions, and he hoped they would promptly report in favor of the pension asked.

The House of Representatives was engaged in the discussion of a proposition to extend the Capitol grounds.

FROM NEW YORK.

NEW YORK, April 12.—A special dispatch to the Times says that at a meeting of the Democratic State Central Committee of Albany yesterday, a consultation was held on political prospects. Remarks were made by Governor Seymour, Mr. Tilden and others. The feeling of those present was decidedly unanimous in favor of the passive policy and of looking to the Cincinnati Convention to initiate a programme for the party in the Presidential campaign.

A new German newspaper, the Oestliche Post, which is Republican in politics, has made its appearance here.

Senators Trimball and Schurz arrived this morning at the Fifth Avenue Hotel.

The World says its impressions favor the Cincinnati movement, but until it reaches a further stage of development its course is non-committal.

The lawyer who went to Montreal to bring the defaulting Conklin to this city reports that notwithstanding that he had extradition papers the case of Conklin was decided in court on Wednesday to be one which is not included under the extradition treaty, consequently there is no hope of having Conklin punished here.

The strike of the journeyman painters in Brooklyn has terminated, the employers having acceded to the demand for eight hours and three dollars. The plumbers and gas fitters have resolved to strike for eight hours and two dollars per day. They now get \$2.75 for ten hours' work.

The tug boat Dayport, which exploded last evening near Jersey City, had four coal boats in tow when she exploded. Engineer Dexter, fireman Snyder, James Caulfield and an unknown boy, belonging to the tug, and a boy on a canal boat were blown far off, falling into the water and drowning. After the explosion nothing could be seen of the tug except a few floating splinters. All the coal boats were shattered but did not sink. The tug was old and her boilers rotten. The river is being dragged this morning for the bodies.

FROM UTAH.

SALT LAKE CITY, April 11.—The United States Assessor to-day received instructions from Washington to proceed against the Zion co-operative Mercantile Institution for violating the revenue laws regarding the issue of their own paper as fractional currency without stamps. It is believed an immense amount of their shin plasters are in circulation.

The important Mormon ceremony of setting apart the missionaries authorized by the late conference to labor in Great Britain, and the places in Europe took place yesterday. They are blessed and granted immunity from all danger and misfortune. They are promised for the faithful discharge of their service an increase of wealth and that they shall live to see the coming of the son of man. That their posterity shall be numerous and they shall be made glorious generally. It is said that some of the called are very reluctant to go on the mission and would much rather remain and take their own chances with the Gentiles here outside of the Church. Some of them are business men who regard it as banishment to promote the interests of the church officials.

FROM MEXICO.

MATANZAS, April 11.—A party of Mexicans recently crossed the Rio Grande during the night and went to Elginburg, broke into the jail and released three cattle thieves and then returned to the Mexican side. The sheriff and citizens were previously notified of the intention to release the prisoners, but made no resistance.

Factions has been informed that a party of Texans are organizing ostensibly to prevent depredations, but really to invade Mexico. The Texans have sent to the local authorities at Brownsville a report of the depredations requesting that it may be forwarded to President Grant. A courier who left Camargo yesterday has arrived here. Trevino had not left there. He says he is waiting the arrival of heavy guns from Monterey. Quiriga is at Reynosa awaiting the arrival of Trevino.

THE PHILADELPHIA DISASTER.

PHILADELPHIA, April 12.—The body of Alexander Crawford has been found under the ruins of the Eighth street store which fell yesterday. He leaves a wife and three children. The other victim, Farney Glancy, left a wife and five children. Both were laborers and leave their families destitute. The coroner will investigate the cause of the accident to ascertain whether the contractors are to blame. The centre wall which supported the floors, had been removed and iron pillars substituted several years ago, when the two stores were thrown into one. These pillars gave way under the weight of rubbish caused by tearing down the upper part of the building.
